

Once again, the staff from Department of Corrections Rehabilitation and Reentry, presented a check to YCCI, Yuma Council for CASA, Inc., a non-profit that supports children in foster care as well as children in the delinquency system. The inmates organize fundraisers and choose community organizations to support. Check presentation took place on February 23rd at the Juvenile Justice Center. CASA of Yuma County and YCCI were so excited to be selected for a third time. The funds raised will help provide for the unmet needs of children in foster care. This could include anything from basic items such as clothes and shoes, backpacks and school supplies to beds, glasses, or sporting equipment and fees for participating in activities or attending camps.
